

# ABDUL REHMAN

## LAMP STACK DEVELOPER

rehmandev7 @rehmandev777 rehmandev7

### About Me

Being well-versed in PHP, I can develop server-side scripts and web applications with ease. My coding skills enable me to build dynamic content and implement complex functionalities, enhancing the overall user experience.

### Education

**Premier Public School - Primary Edu.**

**2010 - 2018**

**Al-Badr Public School - Secondary Edu.**

**2018 - 2020**

**Private Institute - Intermediate**

My education at the Private Institute, where I completed my F.A with mathematics. The institute's personalized approach to learning and dedicated faculty enriched my understanding of the subject and prepared me for future academic pursuits with a strong foundation in mathematics.

**2021 - 2023**

### Experience

**Learn2Earn Institute - Ionic Developer**

Over the course of 7 months, I gained a solid foundation in HTML/CSS, TypeScript, Ionic Framework, Angular, and C++, enabling me to develop responsive and dynamic web applications.

**2020 - 2021**

**Analog Systems - LAMP Stack Developer**

Experienced web developer with expertise in Bootstrap, JavaScript, PhpMyAdmin, Apache, MySQL, jQuery and PHP. Proficient in creating robust and dynamic web applications, managing databases, and optimizing server performance.

**2021 - 2023**
